

Rechargeable headlamp with white and UV light

 **FLACARP**

HL3UV

manual

FLACARP HL3UV headlamp is an ideal accessory for lighting UV reflective lines and illuminating luminescent (glow) baits thanks to its UV light.

Main specifications and features:

White LED intensity: up to 530 lm (3 levels)

UV LED wavelength: 420 nm

Battery type: replaceable Li-Ion, 2000 mAh

Charging: USB-C connector, 5V/1A

Protection: IP67

Adjustable angle: 180°

Dimensions: 86 x 42 x 30 mm

Weight: 115 g

Package contents: headlamp, USB cable, manual

Control:

White LED: short button presses control the headlamp in three brightness levels - low, medium and high.

UV light: long press the button when the headlamp is OFF to switch ON the UV LED light.

Night position light function: double-click to activate reduced brightness mode for maximum endurance. Another press of the button will light the headlamp again in normal brightness.

Turning OFF the headlamp: long press the button in any mode to turn OFF the headlamp.

Battery indication: every time the headlamp is switched ON, the button lights up according to the battery status:
Green: 100% - 60% capacity
Yellow: 60% - 20% capacity
Red - less than 20%, we recommend recharging

Charging: USB-C connector is located under the screw cap of the control button. The headlamp indicates charging in red, full charge in green. To ensure maximum waterproof, screw the cap back on firmly after charging.

Safety and warranty:

Do not leave the flashlight in the car on the dashboard or outside the windows in direct sunlight during the summer months. Do not throw the flashlight into a fire or expose it to high temperatures. The device has been issued with an EU Declaration of Conformity. Do not dispose of unusable product in mixed municipal waste, it must be disposed of environmentally in accordance with EU Directive 2012/19. The headlamp is guaranteed for 24 months. The lifetime of the Li-Ion battery depends on the number of charging cycles and usage. The warranty does not cover mechanical damage and defects caused by use contrary to these instructions.

Do not point the headlamp directly into anyone's eyes, as serious eye damage could be caused.
