

# Rechargeable headlamp with zoom

 **FLACARP**  
**HL3ZM**

manual

FLACARP HL3ZM headlamp with three brightness levels and zoom, to adjust the light cone for diffused light at close range and sharp cone at distance.

#### Features:

White LED luminance: up to 376 lm (3 levels of intensity)  
Battery type: replaceable Li-Ion, 2000 mAh  
Charging: USB-C connector, 5V/1A  
Protection: IP67  
Adjustable angle: 180°  
Dimensions: 86 x 50 x 30 mm  
Weight: 120 g

**Package contents:** headlamp, USB cable, manual

#### Control:

Short button press controls the headlamp in three brightness levels - low, medium and high.

**Night position light function** - double-tap the button to activate the reduced brightness mode for maximum endurance. Another press of the button will light the headlamp again in normal brightness.

**Turn off** - long press of the button in any mode will turn the headlamp off.

**Battery indication:** every time the headlamp is switched on, the button lights up in the battery charge status:  
Green: 100% - 60%  
Yellow: 60% - 20%  
Red - less than 20%, we recommend recharging

**Charging** - The USB-C is located under the screw cap of the control button. The headlamp indicates charging by red and full charged by green LED. For maximum waterproofness, screw the cap back on tightly after charging

#### Safety and warranty:

Do not leave the headlamp in the car on the dashboard or outside the windows in direct sunlight during the summer months. Do not throw the headlamp into a fire or expose it to high temperatures. The device has been issued with an EU Declaration of Conformity. Do not dispose of unusable product in mixed waste, it must be disposed of environmentally in accordance with EU Directive 2012/19. The headlamp is guaranteed for 24 months warranty. The life of the Li-Ion battery depends on the number of charging cycles and how it is used. The warranty does not cover mechanical damage and defects caused by use contrary to these instructions.

**Do not point a headlamp directly into anyone's eyes, as serious eye damage could occur.**
